

Allergy Testing and Treatment

Finally,

A NEW REVOLUTIONARY APPROACH

No Needle, no pain allergy testing

No Needle, no pain allergy treatment

Imagine.... having an **allergy test** without pain or needles.

Imagine.... having **allergy treatment** without having to have weekly allergy shots.

Imagine.... a reduction in out of pocket expense for allergy medication.

Imagine.... finally becoming desensitized to pollen, cat and dog dander and all those seasonal allergies.

If you suffer with allergies, Dr John Infantolino, Brick, NJ has started a new program at his office for allergy testing. The program will test for 70 allergies in a matter of 40 minutes. There are no needles and no scratch tests. The program's applicators put slight pressure on your back; never breaking the skin. The testing of the allergens takes a total of 20 minutes to develop. After 20 minutes, Doctor will read the test results and prescribe treatment as needed.

Testing is covered by Medicare and Most Insurances.

Dr. Infantolino welcomes all who want to be tested and treated from ages 12 and up. Please call for your appointment.

732-840-0010

5 Princeton Ave, Brick, NJ 08724

Dr. Infantolino is the first physician in NJ to introduce this amazing FDA approved procedure. Dr. Infantolino has been practicing Internal Medicine in Brick, NJ for over 25 years.
