“No Needle” Allergy Treatment

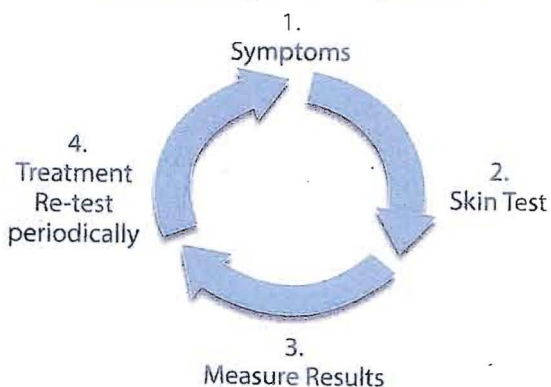

Do you regularly suffer from:

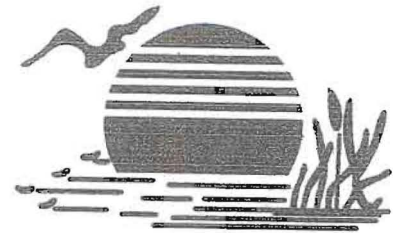

- Runny or stuffy nose
- Sneezing
- Itchy nose
- Sniffing
- Sore or itchy throat
- Red, itchy or watery eyes
- Wheezing or coughing
- Chronic bronchitis
- Asthma
- Frequent ear infections
- Itchy skin, rash or hives

Do you simply shrug them off as 'they're just my allergies' but don't do anything about them?

How?

Initially your doctor will perform a multi-site skin test which is the best and quickest method of testing for allergic reactions to substances, or allergens, in the environment. The test is painless, does not use needles and will take only 30 minutes or less.
